PVC Finder is a utility that was designed to help you locate illegal reproductions of movies and other videos. The program needs you to load a source file and then it takes some screenshots from that video and searches for possible matches. With PVC Finder you should be able to easily find any copies of that video if they are made available as streaming movies. PVC Finder features: Find illegal video links to movies or other videos View screenshots from a source file Find most of the P2P networks. All videos are detected by a complex technology PVC Finder lets you scan videos and it find all types of videos, including the following: 1. MP4 files 2. FLV 3. AVI 4. JAVA 5. MKV 6. MOV 7. OGG 8. MPEG 9. PSP 10. ZIP PVC Finder will search P2P networks such as: 1. The largest online P2P network 2. The biggest files sharing network 3. The largest free internet radio 4. The biggest file sharing web pages All sources are verified by an advanced technology Almost all of the videos that are found are verified by two different technologies, one of them can be found as an expert in the field of detecting videos,

so you can be sure that you will get a valid link. The P2P netwoks that are detected are taken in account by the program and all of them are saved in a database The Database that is used has millions of entries and it's huge, so you don't have to worry about the fact that it will take a lot of time to load the results The number of shared files that were found by the program is displayed While P2P networks are detected, they are saved in a database and you can easily sort them in a way that is convenient for you Using the program can be very easy and can even be done without any installation PVC Finder can be used in a very easy way, all of the options can be easily found in the program's options, you just have to press a button and the program starts to find the P2P networks The options are set up before you start using the program You can save and restore the options as you wish PVC Finder can detect videos from all the types of movies such as: 1
