WebsiteChat.net is an open source application that can be modified and customized to your site's requirements. WebsiteChat.net is very easy to set up and works automatically. Chatroulette is a random video chatroulette application which enables you to randomly chat with other users. Chatroulette features only one video chat window so you are not allowed to have more than one window. For each chat, a random chatroulette user is selected for you. Once a chat is finished, the chatroulette user becomes a friend of yours. You can also invite friends to chat with you. Each friend has his/her own chatroulette window. This chatroulette application has a feature called time limited chat. When a chat finishes, there is a timer to stop chatting. When the chat timer runs out, a new chatroulette user is randomly chosen for you. Chatroulette is a random video chatroulette application which enables you to randomly chat with other users.
