System Requirements:

Windows XP SP3 or newer, or Mac OS 10.9 or newer. Minimum of DirectX 9.0 or OpenGL 2.0. Mac users should note that the VX Web site now requires Java version 1.6.0_05 or later in order to function correctly. Minimum system requirements vary according to what you're downloading. See the download page for full details on what you need. I've been asked a few times about Mac compatibility and compatibility with my other programs. I've tried to compile both the Mac and Linux versions
