KeyMacro (or PCKeyboard) is a simple, easy-to-use and free utility designed to enhance the functioning of your keyboard. KeyMacro makes all the keyboard keys act like the control keys on your computer, allowing you to quickly and easily perform actions, such as launching applications, changing the volume, switching the screensaver or changing your desktop background. KeyMacro works well with all the keyboard layouts and even allows you to combine them into one large virtual keyboard, enabling you to easily perform multiple functions. You can also combine several windows into the same application, allowing you to manage all your open programs simultaneously. KeyMacro also comes with a built-in text editor, which makes it possible to quickly insert, copy or delete characters, text and even pictures. The program can be easily customized, saving your settings into your profile and preserving them even when you exit. KeyMacro can also be used as a shortcut recorder. By recording a keyboard sequence, you can set it as a keyboard shortcut, which will open a window whenever you activate the key combination, allowing you to control your activities easily. KeyMacro allows you to adjust all the available shortcuts to your liking. Furthermore, you can also set a keyboard shortcut to perform a specific action at the exact moment you need, in addition to adding a new shortcut for all the main Windows functions. You can use the built-in profile editor to customize the keyboard settings for any selected program. On the other hand, you can also record any text or picture, or have KeyMacro turn on your multimedia or web camera so you can capture anything you want. KeyMacro can be easily installed from a CD or downloaded from the net, adding a high-quality user interface and many useful features to your computer. KeyMacro is fully compatible with Microsoft Windows 2000/XP/2003/Vista/7/8/8.1/10 and even with all the upcoming Windows versions. KeyMacro is not a "screenshoter", however you can use it to quickly take screenshots by double clicking any control key. KeyMacro is free, easy to use and free of adware, spyware and ad-supported. KeyMacro is available in Spanish, Catalan, Catalan Spanish, English, French, German, Italian, Spanish, Portuguese, Spanish, French, Dutch, Norwegian, Russian, Czech, Bulgarian, Polish, Hungarian, Slovenian, Finnish and Swedish. System Requirements For Fast Browser Cleaner:

Expect a couple of hours of disk space and RAM usage before you even get going, or even install. Once you do, expect 15-30 hours of performance based on your hardware. If you have an older machine, consider getting a VM that will cut your time in half (a good VM can cut it down to a reasonable amount of time). This entire process can easily be repeated at a later time to try different AI designs. While the AI designer is in this package, you will still need a strong CPU to run the program as you will be paying
