
Windows 8 Fix P8.25.exe Free Download

Install the cumulative update package. Enable the fix with the following parameter in the DistributedCacheService.exe.config file: `<appSettings><add key ... ><filter type="module" value="package-updates" key="package-updates" /></appSettings></appSettings>` In the appSettings.config file, you must add the packages.package-updates key. This will point you to the directory where you want the updates to be installed in Windows. If this cannot be done with packages, you can manually edit this entry in the appSettings.config file and try to find the folder
